

Gallery North

It has long been the dream of the art community to have a public gallery that would be the pride of our area.

A few years ago, a group of dedicated people formed the Peace Arts Gallery Society. Through their continuous efforts, including meetings with the architects, fundraising and countless board meetings, we now have a Public Art Gallery.

Our facility meets national gallery standards. Humidity and temperature controls, special lighting and a unique hanging system which allows the Gallery the freedom to bring in a greater variety of exhibits, both travelling and local.

The Gallery will be featuring the following exhibits this fall.

October 13-30/92 Inez Demuynck-"Site C"

An aqueral display representing the artists perception of the losses that will be incurred should "Site C" go through.

November 2-27/92 Donalda Grassie

An extensively represented local artist whose native styled renditions of wildlife in their natural habitat is truely unique and awe inspiring.

November 12-December 4/92 Bob Young

A unique local potter whose non-functional works include Raku, and the methods of Saggar firings, and New Zealand Pit firings. His work is a result of man and nature working together.

Please feel free to drop by & experience these exhibits. The Gallery is open Mon. to Thurs. 10 am to 5 pm, Fridays 10 am to 6 pm and on occasional Saturdays. Group tours are available. The Gallery also accepts applications for a variety of volunteer positions. For more information on upcoming events, tours & openings call April 787-0993.
