## DIRECTOR'S MESSAGE

As a play "for children and bright adults," The Golden Grotto has been a worthwhile challenge. Live theatre is not television, therefore, audience members, especially children, must be drawn into the play, not just as watchers, but also as participants. The Golden Grotto is definitely "interactive". I hope you all leave the play feeling a bit more optimistic about "love, truth and beauty."

This being Stage North's first production in the "Before Stage" of our new cultural centre, I would like to exhort all of you to do all in your power to ensure that we get it all together and complete the "real" theatre where we can really knock your socks off about sixteen months from now!

The Senior Acting class of NPSS will continue their long list of hits with an evening of suspense thrillers on Friday, Dec. 11 at 7:30pm in the NPSS gym. Cost will be \$3 for adults and \$2 for seniors and children. On the bill will be:

The Birthday Present—a psychological question mark  
looking for an answer.

Who Calls—a mystery with a touch of fright, right out  
of Alfred Hitchcock's bag of tricks.
