HIGH ON ICE - AT A GLANCE

The Energetic City has exciting plans for the 2010 High on Ice Festival, set for January 14 - 17, 2010, featuring many professional and amateur ice carving events. Hundreds of spectators, young and old, come to this weekend event to watch carvers turn blocks of ice into creative works of art. It is British Columbia's only National Ice Carving Association (NICA) sanctioned event, and boasts over \$15,000 in prizes!

The City of Fort St John's High on Ice Festival is recognized as a signature community event and a celebration of visual art and local culture is brought to the event through the ice and snow carving events and competitions. Ice and snow events foster our local artists and provide a venue for new enthusiasts to develop their skills and techniques related to carving, and offers a community based venue to showcase, celebrate, and promote Fort St John's talented residents.

Coordinated by the Fort St John Arts Council, the professional ice carving takes place in 24 non-consecutive hours under NICA judges supervision from Friday to Sunday. The non-professional ice carving has a beginner's category and an intermediate division taking place on Saturday. Community Snow Sculpting takes place on Sunday.

Become a sponsor of the ice & snow carving event at this year's High on Ice Festival!
