

ICE SCULPTING

with Peter Vogelaar

Peter Vogelaar, former Fort St. John resident, began snow and ice sculpting soon after he moved to the Kootenays more than 10 years ago. In that time he has won many awards, both nationally and internationally. The highlight was representing Canada at the Nagano Winter Olympics in Japan, where his team received an honourable mention and were the people's choice. He and his team have also built snow and ice sculptures in countries throughout Europe. Peter was best known here for his fine watercolour paintings, an artistry he still continues, as well as working in bronze and steel.

Ice Sculptors Workshop

Discover a new winter activity. Explore the possibilities involved in this fantastic winter art form. Learn to ice sculpt with Peter Vogelaar, world class ice/snow sculptor.

Workshop

December 6 at 7:30 pm

**Cultural Centre wet crafts room
followed by hands-on ice
sculpting**
