# A Community Success

Peace Gallery North is pleased to introduce you to the works of our local children. The children entered our Juried Art Competition and those selected, participated in workshops in which they enlarged, and painted their themed design onto a banner. Each of the student's banners represent not only hard work and an outstanding design, but a demonstration of cooperation, creativity, and education.

Many of the students had the opportunity to participate through their class curriculum, while others participated through initiative of their own. School District #60 teachers commented on the seriousness in which the children took on the project. And several Librarians commented on the amount of student research that occurred for this project in our libraries. Students were required to theme their entry artworks to either the Bicentennial of the Fort St. John area, the Fort St. John International Airshow, or the Commonwealth Games.

183 students, aged 6 through to 21, pledged themselves to the creation of our Community Art! The response to the project was amazing, and the pride experienced by the participants during each of the Banner Camps was awe inspiring. Parents would approach project organizers and ask if they could help their children paint, and paint they did! Whole families (many of which admitted to only being able to draw little more than stick men) participated in creating our banners!

To make this project possible Peace Gallery North had to engage in partnership with many parties, including: The City of Fort St. John, from whom we received full support for the project via financial backing, banner spaces/locations, and technical assistance; School District #60, who engaged their staff, principals, teachers and stu-

dents in the project; BC Hydro, who graciously supported the project through a corporate donation, for the inclusion of the Commonwealth theme, and the Fort St. John Airshow, for their financial support. The Totem Mall also heard about our project and trusted us enough to jump aboard. The Alaska Highway News provided continuous coverage and this booklet! The local community minded businesses contributed via banner sponsorships (see page 7)... Please note the inside back last page for further notations of people who made-it-all-happen!

The Banner Camp was not an easy project to take on as much planning, research, and promotion was required. We were fortunate to have a great group of volunteers who believed in the project. We were excited to have cast from Up With People included as volunteers as well as many many dedicated others.

Peace Gallery North is very pleased to have exceeded our expectation and to have experienced such full community support. In the middle of this project I said "never again", but it's with pride, and a sense for our "young artists" accomplishment that I now say "next time..."

## Banner Camp

Banner Camp is an excellent opportunity for many of our students to put their creative energy to work with a positive focus. Through partnerships like these many of our talented students can be promoted throughout the region and be recognized in the community. These banners complimented the banners designed for the Power Smart Sport and Culture Tour and were prominently displayed throughout the downtown core.

Thank-you to April Ingham for her commitment to the success of the Banner Camp. As Well, thank-you to all the teachers, principals and students who dedicated their time to this successful camp.

OFFICE OF THE MAYOR

**Banner Camp Participants, Volunteers & Sponsors:**

On behalf of the Council of the City of Fort St. John, I would like to take this opportunity to thank and congratulate Peace Gallery North for the success of the Banner Camp project.

I would also like to thank the many volunteers and sponsors as well as all the very talented students who took the time and effort to enter their artwork in the competition.

The City is most pleased with the quality of the banners on display in fort St. John and I congratulate the students who were successful in having their artwork displayed in such a unique and fun way.

City Council is proud to be able to say that they were able to play a part, through sponsorship, in making this project possible, as we believe that it is through community efforts such as this that we keep the "Spirit of the North" alive and strong.

Steve Thorlakson  
Mayor

**Partnership in Action**

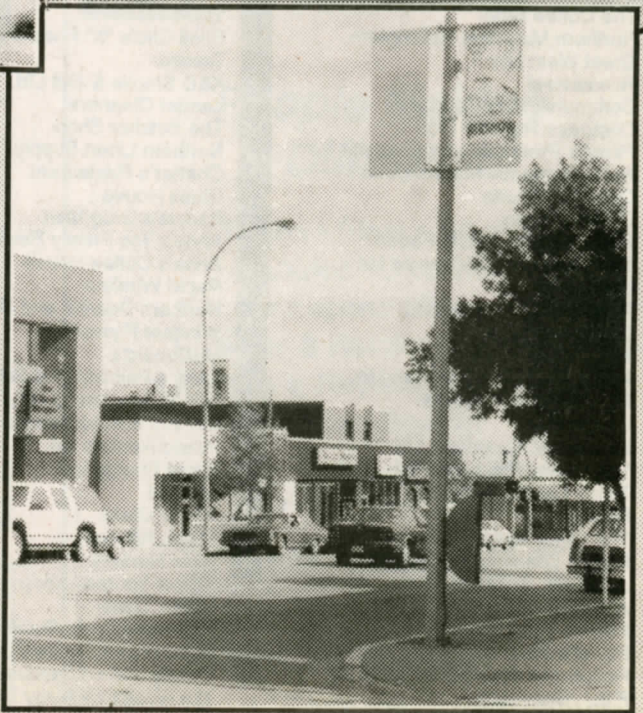

Banner Camp is a great example of what can happen when schools and communities work together. School District 60 and Peace Gallery North are in partnership to promote the artistic and aesthetic development of students throughout this region. April Ingham of Peace Gallery North worked very hard along with teachers and principals at organizing and promoting Banner Camp.

Banners – the creative work of students in our area – are now proudly on display in many areas of the city.

On behalf of School District 60, thanks to all students, teachers, principals parents, and other volunteers who helped make this a reality. A special thanks as well to April Ingham of Peace Gallery North for her leadership and dedication to the promotion of all young artists.

Respectfully,

Paché Denis,  
Director of Instruction
