The Committee met in the coffee shop for a general discussion prior to meeting with the Honourable Frank Oberle. A letter dated November 4, 1986 from the Bay was read advising that their decision would be made very soon. The Committee moved to a meeting room at 2:00 p.m. and were joined by Frank and Mr. Don Maides, Frank's executive assistant from Prince George.

After introductions Brian opened discussions by outlining the Legacy Project and the Committees activities to date.

Brian, Carolyn, Willa and John in particular took part in this discussion including advice that locally the sum of \$120,152 has been raised not including bank pledges and that the list of donors now exceeds 275 people (and firms). No major Corporate pledges have been received.

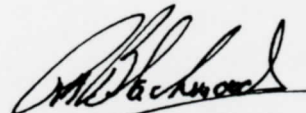

In answer to a question from Frank he was advised that there were no contributions for capital purposes from the city, the Village or the two Regional District electoral areas involved however those four areas have agreed to provide the operational requirements for the project.

Frank outlined the Federal Policy on cultural grants and advised that they regarded the fact that lotteries being turned over to the Province for cultural purposes also turned over the federal resources for such purposes to the Provinces. However there is an annual amount of Federal money available (\$16,000,000) and that the 1986/87 applications were at least twice that amount.

He advised that in his discussions with his counterparts in Ottawa he had placed the Fort St. John project as his first priority and that it was hoped that an announcement could be made prior to the end of the year for funding in the 1987/88 fiscal year. The amount of \$500,000 was discussed.

Frank requested that a list of the Corporations to which requests for funding had been made and advised that he would encourage them to make contributions.

The meeting ended at 2:40 p.m.

To date approximately \$27,000 has been pledged in this manner (over and above the stated \$129,000)

- Considerable discussion ensued and the Committee was very enthusiastic about this procedure.

Brian suggested that perhaps we should be looking for a volunteer Project Manager at this time.

After further discussion Sue invited Mike to attend a Building Sub Committee Meeting.

Brian suggested that the list of corporation requests which had been sent to Frank for him to follow up on be also forwarded to Tony as he has agreed to follow them up also.

Brian suggested that he felt it was now time for Pat and Shirley to go to Winnipeg and discuss the Bay grant and building purchase probably before Christmas.

Brian also commented that it appears ICG and its affiliated companies will be making a grant (\$20,000) jointly.

There was discussion concerning the corporation list, follow up and matching of returns to requests. Joe volunteered to accept this project.

- (3) Peter Priebe discussed Mike's project and wondered how much publicity should be given to it until after next weeks meeting. He also suggested that we should discuss this type of concept with others who have done projects in this manner (i.e. Golf Club, Curling Club, Ski Club).
- (4) Sue asked the question "who are the Committees and what are their duties?". After discussion it was agreed that each sub committee would prepare a list of who is on such committee and their understanding as to what such committees duties and responsibilities are. A meeting will be held on Thursday, December 18th at 5 p.m. to receive this report from all committees.
- (5) Harvey suggested it was now time to go for the commitment. He suggested the proposed Winnipeg trip should be made to secure the Bay's grant and then proceed and purchase the building.
- (6) Carolyn advised that she had talked to June Davidson earlier today and had been advised that there would be no problem in receiving the requested extension and that a letter will be coming. She also advised that the committee had long since decided to do the whole project not approach it piecemeal. Feels will loose support if we proceed piecemeal.
- (7) Sue then requested each person at the meeting to make some positive comment before we end the meeting.

The general comments made were favourable, positive and encouraging.

Wilf felt the committee should meet with the School Board again and Shirley felt the Municipalities should be represented at such a meeting.

Expo Legacy Project
Special Meeting: Give-A-Week Program
December 16, 1986

Present: Joe D'Attilio(Chair) Peter Priebe
 Sue Popesku (V. Chair) Mike Waberski 787-0300 (w) 785-3611(h)
 Shirley Pomeroy Norm Bryson
 Willa Temple
 Bill Harlos

Joe gave information from MLA office that donated labour was usually calculated at \$6.00 for unskilled and \$16.00 for skilled if the labour was on a volunteer Work-Bee situation.

Mike clarified that the Give-A Week Program was set up with contractors who would draw from the general labour pool if the contractor requires additional labour. We are dealing with the contractors here and not a labour pool since this is not a Work-Bee. He insisted that the whole program be administered firmly and business-like.

Workman's Compensation: The people at this meeting recommend that the project supply WCB for the contractors on the Give-A-Week Program.

A discussion about the project manager route or the General Contractor-with-a-clerk-of-the-works route concluded that a major portion of the money must be in hand before any money is spent on hiring or further designs.

When tenders are advertised, then the Give-A-Week program would be included in all information and decisions.

The group identified that the current situation with the Expo Legacy Grant from the province is bound by 1. the location 2. minimum capital expenditure of \$2.6 3. 4 major groups involved- library, theatre, Artspace, art gallery.

Design of floor plan-

The group agreed that the current circulated floor plan has been revised by the design committee made up of representatives of the 4 groups. However, these new ideas have never been presented to the entire Expo Committee. Mike Waberski will make a neat copy of these plans to show the committee. He will be able to use the new copy in the Give-A-Week program and the Committee will be able to show the public the current ideas about the floor plan.

Financial chairman is asked to check into the invoice-issued-verses-the-cash-exchange-hands in order to receive a tax-deductible receipt. The group wanted to be perfectly clear on Revenue Canada's requirements for receipts issued.

Mike W. will tell Sue P. what to write into article for paper about the Give-A-Week program. Article to be given to Thurs. meeting and Ken G. (publicity), before being made public.

Willa gave a breakdown of the funds received to date which will be given to the Thurs meeting. Total \$159,028.10. The Give-A-Week pledges will be counted dollar for dollar and monitored so the pledges are realistic. Give-A-Week program has \$27,000 from seven pledges so far.

Mike was concerned that this program not replace the possible cash donation. He will find out from Willa and HARvey which business have turned down the project due to no cash to donate. He may be able to get them on the Give-A-Week Program.

R.H. BLACKWOOD, P. ADM.
MUNICIPAL MANAGER

Chairman's report to the Thursday, January 8th meeting of the North Peace Legacy Committee. 12

May you all have a happy and prosperous New Year! It is my wish that this year, 1987, becomes the year when all our lives are enhanced with the reality of a dynamic, new, public facility, the Arts Complex, coming to fruition. Much of the work towards that goal has already been accomplished. Although there are a few loose ends to tie up, this project can fly. We, collectively, the people of the North Peace can assure that it does this year.

Stressing first the needs for, then the benefits of, the Legacy Project, public awareness can be raised. The profile of our entire region will be mightily enhanced by an undertaking of this magnitude. So, "What can I do?" interested parties ask? "I've no money, tough economic times have dictated that I be frugal. I've not even time since it takes all my energies now to make ends meet and to keep my head above water as it is. I'd like this beautiful building built, it would at least give me a warm place to stop in at when I'm uptown, but what can I do, given my tight conditions?"

Sounds pretty familiar right! I say to you, my friend, that YOU can spearhead this campaign! First of all we of the committee still need now, and will need later on more, volunteers. So you could call the Artspace, give your phone number and even if you cannot give money at this time, let your name stand as an interested party. What's more though you could spend 35 cents, buy a newspaper and keep informed. Pass that paper on when you're done and keep a friend interested. Or you could turn your radio dial to 560 and listen to the issues and answers concerning the project. We are streamlining our endeavours as the Legacy committee but the link to rapid success is that everyone realizes that this effort is not for an elite group of benefactors, it is for all of us, our children, our friends, and sometimes overlooked, our image.

In my last report I mentioned that we are a strong cultural community and need only the proper facilities to manifest that culture through the Arts. In this report I'd like to impress the importance of a positive approach. Only in this way can we discourage mis-information and outright lack of information.

We are planning to schedule public forums in late January and also in early February at which times we will inform as to where the project stands with regard to exciting recent developments; identify the multiple uses of this facility; and accept problems and concerns that people have.

Keep a positive voice going and give generously to this Legacy, with time, effort, and a donation or a work pledge.

Further information regarding general assemblies of the North Peace Legacy Committee will be announced through this Paper and CKNL Radio.

Keep reading and listening, and giving.

Thank-you.
Joseph D'Attilio
