Dear Editor;

I would just like to say I am really proud of North Peace putting on the play Oklahoma. It's just fantastic how many students are involved with this production. Many of the students have donated their time to help out and they, as well as the cast, have worked very hard to achieve perfection. I think it's just great to know there is school spirit among the students and it makes the whole school feel a lot better when the students get involved in school activities. I just hope Oklahoma will be a success with all the time and effort participating students have put ~~into~~^{into} it.
